

LEGEND

- Existing bedrock wells
- Piezometers installed during DNAPL characterization study

Note

- 1) Constituent values are depicted using a log scale.
- 2) ND = No chloroethenes were detected.
- 3) Total chloroethenes = sum of analytical concentrations for tetrachloroethene; trichloroethene; cis-1,2,dichloroethene; trans-1,2,dichloroethene; and vinyl chloride.
- 4) Results from duplicate samples were averaged.
- 5) NS-L = Not sampled or sample jar was lost.
- 6) No recovery = Core barrel recovered no soil from this depth interval.
